

Together We're All In For Kids!

What makes Communities in Schools of Miami so unique and effective is that we are based directly in the schools – full time, all day, every school day - to meet students where they are. Our Site Coordinators are there in the morning when that first bell rings ready to work with any of the numerous challenges that students may be facing that day. Throughout the entire school year, Communities In Schools of Miami is physically there and “all in” to make sure that obstacles to student achievement are addressed and removed. I'm so proud and excited to share with you our [2016-2017 Impact Report](#). In it, you'll see how Communities In Schools of Miami played a role in the milestone achievement of the total elimination of F grade schools in Miami-Dade County this year. A deep, heartfelt thank you for your dedication and support as together we continue to make historic impacts in our community through student achievement.

- Elyssa Linares, President & CEO

Serving 18,975 Students

Announcing the New Eat Smart Program

In an effort to eliminate hunger and obesity among children in Miami-Dade County, we are excited to launch the Eat Smart program at North Miami Middle School for the new school year. Powered by the [Community Initiatives \(CI\) Foundation](#) in partnership with the [South Beach Seafood Festival](#), the program's vision is to provide balance in children's lives through nutritional awareness and individual development. The program will work with North Miami Middle School teachers to ensure that a well-stocked pantry with food and household items is available to the students and their families on a monthly basis. Additionally, the Eat Smart program will organize in-school educational seminars and field trips throughout the year with various partners of the South Beach Seafood Festival to teach students entrepreneurial skills and expose them to real-life educational experiences. Starting Students Off With Success

This summer, our generous community of donors teamed up to fill two buses to the max with school supplies! Together, we made sure that our students have a great start to their new school year by giving them the complete supplies they need to succeed and alleviating the financial burden for parents who struggle to make ends meet. Over 15 community partners collected school supplies all summer for underprivileged Miami-Dade County Public School students, filling over 200 boxes with paper, pencils, rulers, crayons, notebooks, and so much more! In addition, each school received supplies for teachers and a box of personal hygiene and grooming products for students in need.
