

Testimonial ANA ZELAYA

These last three years of being in the mentor program have been well worth it. I made a lot of new friends and met a lot of memorable, influential speakers. Being in this program has had me become great friends with one of the greatest people I know, Sharokina. I have learned to trust her and confide in her whenever it felt necessary. She has taught me that I should keep striving for the best, regardless of what setbacks I encounter. She has been there for me through thick and thin. I know I can count on her. Since she has been mentoring me, my attitude on life has gotten a lot better. I can see myself attending college and becoming a crime scene investigator. I would like to thank CIS of Miami for giving me the opportunity to be in the mentor program.
